NOA

You want to hear something really fucked up? *(The girls laugh and egg her on.)* I had patrol duty last night. It was really cold--late--between three and four. Crossing from tent to tent with another soldier--alternating inspections--shining our light. I passed all of the places I had met in secret with Ari. I was falling asleep. I could see us touching... And then...I heard a noise--from one of the tents. It was a moan--I thought I was still dreaming until I heard it again, louder...I immediately thought that someone was having sex. Wel...it has happened... I went to look. It came from inside. I kept my flashlight off and looked in. All of the girls were asleep. Passed out. It was a dream I thought...and then...I heard...breathing in one of the corners. And there she was--this girl moving, squirming in her bed. Touching herself. *(She suddenly bursts out laughing--a cascade of laughter.)* She was--and I have heard of this happening--but only as rumors--as legend--she was--Oh, God...she was masturbating with her rifle. *(She laughs.)* I didn't know what to do. I couldn't move. Oh, God. I just froze at this bizarre sight--so weird with the other girls too exhausted to hear her--as she got close--closer...Oh, God...and I thought...what if--what if at the moment of climax she just pulled the trigger. *(beat)* To end it. To end this...to end it. So strange, I know...but strange thoughts happen when you see a girl masturbating with an M-16. *(She laughs.)* And I stayed and watched her until she finished. It was like seeing a dead body for the first time. You just can't get away--because you're witnessing something real. Something human.
